
GRIN2B Family Weekend 2024 Sponsorship Opportunities

GRIN2B Foundation is hosting its second **GRIN2B Family Weekend** at the Hyatt Regency Denver-Aurora Conference Center on July 19-21, 2024. This weekend is designed to give families a broad overview of GRIN2B, clinical trials, patient registries, updates from our Research grantees, as well as ample time to connect with each other.

This information is shared with you as part of our invitation to attend or support our conference as a sponsor or a vendor. ***It is our hope to build lasting relationships with our conference sponsors and vendors.*** The cost to put on a biennial Conference is significant.

Our 2022 Family Conference had 107 attendees, and we hope to have over 125 attendees this time. To make our event as accessible as possible, we are providing limited travel scholarships to families, we will livestream and record many of our sessions AND we are planning many fun activities for children to participate in while parents are in sessions.

We expect this event will be our most exciting and impactful one yet. We are a small non-profit with an estimated patient population of **550+ people worldwide**.

What is GRIN2B? GRIN2B is a gene responsible for sending chemical messages to the brain. Variations on the GRIN2B gene change how the brain receives these messages and lead to a diagnosis of **GRIN2B-Related Neurodevelopmental Disorder**. Common symptoms include hypotonia, intellectual disability, speech delays and gross and fine motor delays.

What is GRIN2B Foundation? Formed in 2017, we are a 501(c)3 non-profit, focused on providing support to families, promoting awareness of this ultra-rare disorder and funding research that will lead to treatments and cures for those diagnosed with GRIN2B-Related Neurodevelopmental Disorder.

What parents are saying about GRIN2B Family Weekend:

“There is nothing like being in the presence of other people who REALLY get it. Going to the Family Weekend meant not going on a more typical summer vacation, but it was so worth it to connect and reconnect with other GRIN2B families and hear from researchers in the field.” - 2022 GRIN2B Family Weekend Attendee

“Amazing weekend with families and speakers on GRIN2B. It is very well organized with an impressive list of speakers. Great opportunity to meet other parents, Bees and speakers. Highly recommended for the GRIN2B community around the world.” - 2022 GRIN2B Family Weekend Attendee
